An Invisible Army

A muster of the Bell forces of the country would bring together two hundred thousand men and women.

Little is seen of this army. An installer now and then or a group of cablemen and linemen. Well over a hundred thousand comprise the operating force alone—a force now handling an intricate telephone traffic amounting to over thirty million calls a day.

These young women are playing a big part in the war-time activity of the nation and are tackling each task with a spirit that merits on the part of the public a courteous appreciation of their efforts at all times.

Chiropractic

HISTORICAL

The principle of Chiropractic adjustment was discovered twenty-three years ago; the science of Chiropractic has since been formulated.

By referring to the above illustration you will see near the lower end a **magnified** illustration of a normal and an impinged nerve. Fig. 1 shows a nerve in perfect health, performing its function as nature intended. Fig. 2 shows a nerve impinged, and the flow of vital energy obstructed. Fig. 3 shows vertebra out of alignment (subluxated).

EXPLANATORY

The brain is that wonderful organ which we intuitively recognize as the seat of all our power. It is not difficult to understand, in fact, we all understand that in some strange way which has become so common to us as not to seem strange, that our sight, our hearing, our feeling and all of the other powers come from the brain. However, the question HOW this is accomplished rarely presents itself to us. Of course, we would all readily answer so far as the eye is concerned, by the optic nerve; but it presents a more difficult problem when we take the case, for instance, of a sensation in the stomach. In cases so remote from the brain, we immediately fall back upon theory and to accusing the stomach of some wrong on its part, and do not assign the sensation in that locality to its true origin, because we have not been so educated. Yet we understand in an indefinite roundabout way, that every sensation in our entire body is an emanation from the brain. If this were not true, a wound would be painless.

When the question is presented to us in this light, we begin to think of that wonderful extension of brain substance from the brain itself, called NERVE TRUNKS. Upon a close examination of the nerve trunks we find that they are composed of millions of small threads, called nerve filaments, and that they extend to every atom of the entire body, and control every function of the body; that is to say, they control circulation, assimilation, seeing, hearing, smelling, tasting, feeling, heat and all the phenomena of the human organism.

It will be quite readily seen therefore that when these nerves are all in normal operation, every function of the entire body must be normal, and that any derangement of the nerves will equally derange the function which they, in normal condition, produce.

The brain covers itself by a number of bones which we call the skull, and the spinal cord is encased in a canal composed of twenty-four bones, named vertebrae. Between each pair of vertebrae is an opening through which a trunk nerve emanates. (See Cut.) When a vertebra of the spine, by any cause, is changed in its relation to another vertebra, the nerve that lies between will be pinched, and abnormal function, or disease, is produced at the end of that nerve, or at the end of the filaments of that nerve.

DEFINITIONS

"Treat (Webster)—To care for medicinally or surgically; to manage in the use of appliances or remedies, as to treat disease, a wound or patient."

"Adjust (Webster)—To make exact fit; to fit; to make correspondent or comformable; to bring to proper relation."

THE CHIROPRACTIC WAY

A Chiropractor does not treat disease, but adjusts the vertebrae into normal position, turns on the nerve supply, and nature restores normal conditions.

A qualified Chiropractor, in adjusting the vertebrae, uses nothing but his hands.

Because you have no pain in your back is no sign the vertebrae of your spine are in perfect order. If a nerve leading to your liver is pinched, where it emits from the spine, the disease will be in the liver and not in the back. This is true of all the organs and tissues of the body.

Chiropractic is purely a mechanical science and has nothing whatever to do with medicine or prescribing or treating or massage or manipulation of the muscles. When the vertebrae are put in place, and the impinged nerve released, the cause of disease and abnormal function is removed.

Adjustment of the vertebrae is accomplished with ease and accuracy by a skilled Chiropractor.

Investigation will conclusively demonstrate the merits of our claims.

Your Choice of the Following Classes of Work at

VERIBEST LAUNDRY

(1) **FULLY FINISHED**—Laundered and starched in accordance with the best practice. Hose darned, buttons put on, rips and tears sewed up—all without extra charge. This is a de luxe service calculated to satisfy the most critical.

(2) **ROUGH DRY**—Articles starched as appropriate. Flat pieces ironed, others returned rough dry.

(3) **FAMILY FINISH**—Every piece of flat work and wearing apparel ironed, as well as possible by machine, but without starch. This service does all the family wash for persons of moderate means and returns the articles ready for immediate use.

(4) **DRY WASH**—The cheapest class of satisfying service. Every piece thoroughly washed in soft water and fully dried. Flat work ironed.

In FAMILY FINISH and DRY WASH the customer's bundle is washed as a whole. It follows that in FAMILY FINISH and DRY WASH, lace curtains, silks, and painters' and mechanics' overalls cannot be handled, nor stains fully removed.

All work at the lowest prices consistent with first quality and high class service.

Prices quoted and sample lists furnished on request.

PIERCE, REV. J. H.—All persons with marriage licenses can have modern wedding ceremony at any hour, at 436-5th St., opposite Hall of Records, where Alameda County marriage licenses are issued. Fee for ceremony here, during office hours, reduced to $2. Most people consider marriage by a judge worthless; some nations refuse their certificates, calling them unhallowed unions. Licenses secured at night and on holidays. Res. Phone ... Oakland 5760
